

Enabling
Drug Discovery

SUMMARY REPORT ON CQDM IMPACT (2008-2018)

CQDM IS A BIOPHARMACEUTICAL RESEARCH CONSORTIUM WHOSE MISSION IS TO FUND THE DEVELOPMENT OF INNOVATIVE TOOLS AND TECHNOLOGIES THAT WILL ACCELERATE DRUG DISCOVERY AND DEVELOPMENT

Our business model provides a collaborative ground between world-leading pharmaceutical organizations, Canadian universities and biotech companies as well as the Canadian and Quebec governments who share the costs of the research and benefit from its results.

The resulting collaborations generate significant financial leverage to support high-risk high-reward projects. As a result, this approach stimulates innovative research by supporting early stage translational research, bridges academic research with the private sector, generates benefits for the academic and private sectors and addresses critical needs of the bio-pharmaceutical research.
