

Overview of SynergiQc-International

General Objective

Support university-based international industrial R&D collaborations in the biopharmaceutical field.

Eligible Projects

Eligible research and innovation biopharmaceutical projects of 1 to 3 years must involve at least one company (priority given to SMEs) and one Quebec public research institution, as well as one private or public partner outside Quebec* demonstrating research capabilities.

Summary of Conditions

As outlined below, CQDM's financial assistance can reach \$500,000 and cover up to 50% of expenses incurred in Quebec as part of a university research project, which represent up to 70% of the total value of the project. The Quebec-based industry partner must fund, in cash, a minimum of 20% of eligible research project costs of the Quebec portion. Other funding sources may supplement the contribution of the private company. In addition, partners outside Quebec must actively participate in the project, with a cash or in-kind contribution totalling at least 30% of all project expenses.

Deadline to submit proposals: October 7th, 2019
